2005

Article Index

B

Behavior-Based Safety: Improvement Opportunities in Hospital Safety. *D. Nielsen and J. Austin.* Feb.: 33-37.

Beware the Disconnect: Overcoming the Conflict Between Measures & Results. *D.F. Zahlis and L.L. Hansen.* Nov.: 18-24.

Building a Better Safety Vehicle: Leadership-Driven Culture Change at GM. *S.I. Simon and P.R. Frazee.* Jan.: 36-44.

C

Critical Thinking Concepts: Applications to Incident Investigation. *J. Philley.* March: 26-32.

D

Designing for Worker Safety: Moving the Construction Safety Process Upstream. *S. Hecker, J. Gambatese and M. Weinstein.* Sept.: 32-44.

Disaster Response: Reducing the Psychological Impact of Disaster on Children. *S.M. Smith, M.J. Tremethick and G.J. Clocklin.* Jan.: 49-54.

Discipline in the Extremes: Potentially Damaging to Behavioral Safety Processes. *L.I. Perkinson.* April: 31-35.

E

Establishing the Level of Danger: Key Factor in Personal Injury & Property Damage Lawsuits. *R.J. Firenze.* Jan.: 28-35.

Expert Systems: What SH&E Managers Need to Know about Software Verification & Validation. *G.L. Winn, B. Gopalakrishnan, M. Akladios and R. Premkumar.* Aug.: 45-52.

Exposure to Biohazards: An Emerging Concern for Construction Workers in Sewer Lines & Wastewater Treatment Plants. *D.P. Garvey.* Aug.: 26-31.

G

Global Harmonization of Safety Standards: Examining the European Influence on the Practice of Safety. *F.A. Manuele.* Nov.: 41-46.

H

Heat Stress: Understanding Factors & Measures Helps SH&E Professionals Take a Proactive Management Approach. *S.H. McKinnon and R.L. Utley.* April: 41-47.

Holistic Ergonomics: A Case Study from ChevronTexaco. *M.P. Martin.* Feb.: 18-25.

I

Industrial Hygiene ABCs: A System for Rating & Ranking Chemical & Physical Health Hazards. *J.M. Haas.* March: 38-41.

Industrial Hygiene Exposure Assessments: "Worst-Case" Versus Random Sampling. *J.E. Spear.* Aug.: 39-44.

Injury among Direct Healthcare Staff: An Unheralded Occupational Safety & Health Crisis. *S.M. Manning.* Oct.: 31-40.

Inside the Regs, Outside the Envelope: Understanding the Delayed Effects of Alcohol on Pilot Performance & Flight Safety. *D. Curry.* Aug.: 32-38.

In-Vehicle Safety Feedback: Driver Perspectives Suggest Technology Has Promise for Improving Safe Driving Behaviors. *Y.H. Huang, M. Roetting, J.R. McDevitt, D. Melton and T.K. Courtney.* Jan.: 20-27.

L

Low Back Pain among RNs: Advantages & Potential Pitfalls of Longitudinal Research. *G. Byrns, G. Jin, C. Mallory, G.D. Reeder and J. Harris.* July: 41-48.

M

Machine Safeguarding: A Process for Determining Tolerable Risk. *C. Roudebush.* Oct.: 20-24.

Manual Materials Handling: Using the Liberty Mutual Tables to Evaluate These Tasks. *P.G. Dempsey and W.S. Maynard.* May: 20-25.

Medical Surveillance: Key Elements of an Effective Program for Employees in Healthcare. *A.M. Mutawe.* Oct.: 41-47.

Meth Labs: Understanding Exposure Hazards & Associated Problems. *D. Hannan.* June: 24-31.

N

Nuclear Safety: Expect the Unexpected. *R.B. Matthews.* Dec.: 20-27.

O

Office Ergonomics: Do They Work? An Analysis of the Effectiveness of the State of Oregon's Office Ergonomics Initiative. *T. Brace.* Sept.: 51-55.

Office Ergonomics Training: An Instructional Systems Model for Developing an Effective Program. *M.M. Robertson and W.S. Maynard.* July: 22-30.

OSH Disparities in Developing Countries: The SH&E Professional as an Agent of Change. *M. Findley and J. Gorski.* April: 24-30.

OSH Internships: One Program's Perspective on Benefits for Students, Employers & Universities. *D.L. Fender and L.E. Watson.* April: 36-40.

OSHA to the Rescue: Roofing Industry Benefits from Agency's Efforts. *R.D. Mundy.* Feb.: 38-41.

P

Paradox of Safety Hopes & Rewards, The: Are You Rewarding the Right Behavior? *J.E. LaBelle.* Dec.: 37-42.

People-Based Safety: Exploring the Role of Personality in Injury Prevention. *E.S. Geller and D.M. Wiegand.* Dec.: 28-36.

Personality Types & Injuries: A Statistical Study & Effective Strategies. *F.D. Pierce.* March: 42-50.

Portable Ladders: Understanding & Preventing Slips at Their Bases. *W. Chang and C. Chang.* Sept.: 26-31.

Pregnant Employees: Special Considerations for Protecting Their Safety & Health. *J.A. Kalish and N. Latif.* June: 32-35.

Q

Quantifying Lifting Hazards: Alternatives Beyond the NIOSH Lifting Equations. *A.C. Townley, D.M. Hair and D. Strong.* May: 26-32.

R

Residual Risk Reduction: Systematically Deciding What Is "Safe." *G.D. Tolbert.* Nov.: 25-33.

Risk Assessment & Hierarchies of Control: Their Growing Importance to the SH&E Profession. *F.A. Manuele.* May: 33-39.

S

Safety Improvement: Perception Surveys Can Reveal Strengths & Weaknesses. *D. Petersen.* Jan.: 45-48.

Safety Leadership: A Four-Factor Model for Establishing a High-Functioning Organization. *T.R. Krause and T. Weekley.* Nov.: 34-40.

Safety Leadership: Managing the Paradox. *R.A. Carrillo.* July: 31-34.

Safety Training: Flowchart Model Facilitates Development of Effective Courses. *R.C. Jensen.* Feb.: 26-32.

Setting Goals, Measuring Performance: Frequency Versus Severity. *D. Petersen.* Dec.: 43-48.

SH&E Management Systems & Business Integration: The Malcolm Baldrige Performance Excellence Framework. *T.P. Rancour.* Oct.: 25-30.

Six Sigma Safety: Applying Quality Management Principles to Foster a Zero-Injury Safety Culture. *M.M. Williamsen.* June: 41-49.

Starting a New Job in SH&E: Tips for a Successful Integration. *N. Dave.* June: 36-40.

T

Transitioning Sloped Surfaces: The Effects of Roofing Work on Balance & Falls. *L. Wade and J. Davis.* Sept.: 45-50.

W

Whole-Body Vibration: Health Effects, Measurement & Minimization. *D.R. Smith and P.A. Leggat.* July: 35-40.

Y

Your Establishment Received a Letter from OSHA: Now What? An Overview of OSHA's SST Inspection Program. *J. Davis, S. Ahuja and E.B. Hollingsworth.* March.: 33-37.

Z

Zero-Injury Workdays: An Effective Metric? *P.L. Clemens.* May: 40-41.
